

Tannin™ Has It.

LIONWAX SW-C

tannincorp.com

COMPOSITION

LIONWAX SW-C is a spray wax produced using a combination of carnauba waxes.

SPECIFICATIONS

Appearance	Off white to beige opaque liquid
Solids	25%
pH	6.5 (± 0.5)
VOC	0
Density Lb/Gal	8.3 (±0.2)

KEY PROPERTIES

LIONWAX SW-C is a hard wax that can be used for wax distress effects and polishing, to achieve a beautifully clear elegant finish.

LIONWAX SW-C can be easily mixed with other aqueous acrylics and polyurethanes to yield a top coat auxiliary which promotes better embossing results.

LIONWAX SW-C will also develop polished tips on milled articles.

LIONWAX SW-C is liquid at room temperature.

APPLICATIONS

LIONWAX SW-C can be used alone or be diluted with water. Aqueous penetrators can be added for deeper penetration.

Works well with **LIONWAX SW-P** for modifying and producing different effects.

Recommended usage: spray or rollcoat at 4-8 gr/ft.
